Apps Anywhere Guide

Apps Anywhere is a web-based tool which provides access to the software applications you use for studying. Apps Anywhere can be used from any University-owned PC.

How to start Apps Anywhere

Once you log in to a machine, Apps Anywhere should automatically launch.

If it doesn’t, just click on the icon which you will find on your desktop.
Using Apps Anywhere

Once you have opened Apps Anywhere, you will be presented with a software list. Scroll down to find more software.

Or you can search for software by using the **Search Apps** box.

Click on the App you want to use. Click on **Launch** to open the App.
The Application player will begin the process of opening your app.
When your app is ready, the status will change to **Running**. The App should start automatically but if it doesn’t, just click on the **Launch** button.

<table>
<thead>
<tr>
<th>Application</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adobe Photoshop</td>
<td>Running</td>
</tr>
</tbody>
</table>

The app will open as below.
You can run as many apps at the same time as you want.

After you have downloaded an app once, it will be stored in your application player.

The next time you want to use the app, just click on it and select Launch.

You can remove apps from the player by selecting Remove. You will however, have to download the app if you wish to use it again.
