Staying safe on campus

How we’re protecting you
• Fewer people on-site
• New entrances, exits, and one-way systems
• Protective screens
• Cleaning stations and hand gel dispensers
• More cleaning
• Monitoring possible cases of Covid-19

How you can help protect yourself and others
Don’t come to campus if you or anyone in your household has Covid-19 symptoms – self-isolate and phone NHS 111.

When you come to campus...
• Walk or cycle here if you can. If you must use public transport, follow safety advice.
• Sign in and out at reception.
• Follow Government social distancing guidance and use a face covering.
• Follow signs on campus for entrances, exits, one-way routes and handwashing guidance.
• Regularly wash your hands with soap and water, and use hand sanitizer (provided at reception).
• Don’t touch your face, and use a tissue if you cough or sneeze – then throw it in a bin.
• If you use a computer in the library, clean the keyboard and mouse before and afterwards, with the products provided.

If you develop symptoms
It’s important to tell us if you develop symptoms so that we can keep you and everyone safe. If you’re on-campus, tell the staff at reception before going straight home to self-isolate. If you’re off-campus, go home to begin self-isolating and call NHS 111. Email covidreport@lsbu.ac.uk to let us know – we will be in touch to make sure you’re ok, and advise you if you need to do anything else.

Support and advice
In these unsettling times, it’s ok to feel anxious or upset. If you have a question about anything that’s worrying you, or you just want someone to talk to, contact us at the Student Life Centre studentlife@lsbu.ac.uk
